

HydraFacial™ Pre-Treatment Instructions

- Two weeks prior to treatment, prime skin with recommended skin care products containing hydroxy acids.
- One week before treatment, discontinue use of the following treatments and products:
 - Waxing, depilatories, electrolysis
 - Masques, loofahs, and other sponges
 - Other resurfacing or exfoliating treatments
- Two days before treatment, discontinue use of the following products:
 - Any retinoic acid derivatives (Retin-A, Renova, Retinol, Atralin, Avita, Tazorac, Ziana), Azelex, or Differin
- On the day of your appointment, please come to the spa with a fully cleansed face; no makeup, aftershave, or cologne should be applied. Avoid shaving the day of the treatment.
