

## **LimeLight™ Facial** **Pre-Treatment Instructions**

For best results, please follow these pre-treatment instructions:

- If possible, please do not wear makeup to your treatment. Shave any area to be treated if applicable. A prep fee will be charged for clients who arrive unshaved.
- Avoid any irritants to your skin, such as products containing retinoic acid or benzoyl peroxide for 1 week before your treatment.
- Avoid sun exposure and artificial tanning (light based or sunless tanning products) in treatment area for 4 weeks prior to treatment. Use a daily sunscreen with a SPF of at least 30.
- Pre-treat skin for at least 2 weeks with a melanin suppressant. We recommended hydroquinone (Recommended: Obagi CLEAR).
- Please discuss with the physician and/or nurse any medications you are currently taking as well as any health concerns you may have prior to your treatment.
- Although this procedure is not targeted for hair removal, please be advised that hair removal may occur as a result of the treatment.
