

Laser Genesis™

Treats the following conditions:

- Fine lines
- Uneven skin texture
- Large pores
- Diffuse facial redness
- Dullness

Areas Treated:

- Face
- Neck

Laser Genesis is often used as part of an overall skincare regimen along with topical retinoid, topical vitamin C, sun protection, Dermaplaning, and Microdermabrasion.

Laser Genesis works by gently heating the upper dermis well below your skin's surface, Laser Genesis improves the appearance of wrinkles through collagen stimulation. Additional heat is generated in dilated capillaries to reduce redness.

Laser Genesis treatments are subtle, but the overall effect can be dramatic. For optimal results, 6 treatments are recommended at 4 week intervals.
